Reviewer’s report

**Title:** Improved awareness and appropriate use of non-occupational post-exposure prophylaxis (nPEP) for HIV prevention following a multi-modal communication strategy

**Version:** 2 **Date:** 11 October 2012

**Reviewer:** Douglas Krakower

**Reviewer’s report:**

The authors did an excellent job of addressing all of my prior comments and I think the article is suitable for publication as-is.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I have conducted research with project support from Gilead Sciences and Bristol Myers Squibb. My research focuses on ways to optimize the use of antiretroviral medications for HIV prevention, so I could have competing interests relating to the topic of this research.
