Reviewer's report

Title: Barbers' knowledge and practice about health hazards associated with their work was low in Gondar town, North West Ethiopia

Version: 1 Date: 10 August 2012

Reviewer: Aliye Mandiracioglu

Reviewer's report:

Reviewer's Comments to Authors:

This is a cross-sectional study that analyzed the barbers' knowledge and practice about health hazards associated with their work.

Generally:
The table and all of the text need technical revisions.

Abstract
Methodology section is unsatisfactory

Introduction:
This is well written and well referenced.
There is no aim of this study.

Methodology:
It is seen page 11 but it must be get involved in page 6 ( before results)
Please clarify questionnaire on barbers' knowledge and scoring.

I wish you well in making the change.
