Reviewer's report

Title: Use of different subjective health indicators to assess health inequalities in an urban immigrant population in north-western Italy. A cross-sectional study.

Version: 2  Date: 21 October 2013

Reviewer: Kevin Fontaine

Reviewer's report:

I have reviewed all of the materials you provided related to MS: 1968255757102715 and, in my view, the authors have responded appropriately to the various sets of reviews.

As such, I believe the revised manuscript is acceptable for publication.
