Reviewer's report

Title: Violence, mental health and violence risk factors among community women: an epidemiological study based on two national household surveys in the UK

Version: 3 Date: 22 April 2013

Reviewer: Sobia Haqqi

Reviewer's report:

Comments:
1. The question posed by the authors is well-defined.
2. The methods are appropriate and well described.
3. I feel that the manuscript needs to be seen by a statistician.
4. The discussion and conclusions are well balanced and adequately supported by the data.
5. The limitations of the work have been clearly stated and discussed by the Authors.
6. The title and abstract accurately convey what has been found.
7. The writing is acceptable.

In my opinion, this manuscript can be accepted for submission, after a statistical evaluation.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests.
