Reviewer’s report

Title: Body mass index and health-related quality of life among young Swiss men

Version: 1 Date: 24 September 2013

Reviewer: Nana Kragh

Reviewer’s report:

Minor essential revisions:
line 181 to 191, consider rewriting, it is hard to understand.
line 283, missing end paragraph)

Discretionary comments: although n is low in the obese group, it would be interesting if you see the same tendency when dividing the obese group up, looking at bmi 30-35, 35-40 and above 40.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
