Reviewer's report

Title: Outreach for chlamydia and gonorrhoea screening: a systematic review of strategies and outcomes

Version: 1 Date: 30 August 2013

Reviewer: Christopher Barbara

Reviewer's report:

Page 3: Abstract, para 3: Results: Suggest to split 64% into 2, ie Australia and the United States to give an idea to the reader on the origin of the program.

Prisma statement guidelines followed and are satisfactory.

Chlamydia as a genus or Chlamydia trachomatis should be in italics throughout the article.

Page 4 line 4 Neisseria gonorrhoea should read Neisseria gonorrhoeae and should be in italics.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
