Reviewer's report

Title: Patterns and Determinants of Breastfeeding and complementary Feeding Practices of Emirati Mothers in the United Arab Emirates

Version: 2 Date: 18 November 2012

Reviewer: Suneth Agampodi

Reviewer's report:

Major Compulsory Revisions

1. Abstract need to be edited. Please see the attached manuscript with comments
2. In methods, sampling procedure is still not clear. The revised manuscript status that a proportionate sample was used, but it was 200 from each selected clinic!
3. In results, no need to repeat all details in tables and figures. Please remove unnecessary text
4. Table number 4,6 and seems not essential for this manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
