Title: Reproducibility of Physical Activity Recall over Fifteen Years: Longitudinal Evidence from the CARDIA Study

Version: 3 Date: 30 January 2013

Reviewer: Barbara Ainsworth

Reviewer’s report:

Thank you for being responsive to the review. The revisions are acceptable with one point. The columns for Table 2 are off (column space is too narrow) which causes the numbers and percentages not to line up in the correct space. This needs to be corrected.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
