Title: Cyclical iron supplementation to reduce anemia among Brazilian preschoolers: a randomized controlled trial

Version: 4 Date: 12 November 2012

Reviewer: Therese Dowswell

Reviewer's report:

Thanks for letting me see this paper again. I raised two issues - inclusion of a table describing the characteristics of participants and more information on how children reported side effects. The authors have addressed both points to my satisfaction.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
