Reviewer's report

Title: Persistent Household Food Insecurity, HIV, and Maternal Stress in Peri-Urban Ghana

Version: 2 Date: 20 February 2013

Reviewer: David Himmelgreen

Reviewer's report:

The authors have done a good job in addressing the reviewers comments and the manuscript is much stronger. In particular, the manuscript is theoretically robust and it addresses interventions.

There are some small grammatical errors, for example, in several places, the authors use "In one hand" or "In other hand." I believe that it should be "On one hand."

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I have published with the last author on the manuscript but do not have any competing interests.
