Title: Pathways through which health influences early retirement: A qualitative study

Version: 2 Date: 13 March 2013

Reviewer: Jorma Seitsamo

Reviewer's report:

The only thing which is on my mind is the importance of good health in retirement process. I would rather say that it is not good health as such which makes people retire but rather the fear of losing health before he or she can enjoy the freedom of the 3rd age. Perhaps the authors should discuss this matter more
