Reviewer's report

**Title:** School food policy at Dutch primary schools: room for improvement? Cross-sectional findings from the INPACT-study

**Version:** 1  **Date:** 22 January 2013

**Reviewer:** Lindsey Turner

**Reviewer's report:**

This article is well-written and interesting. The topic is important. The analyses are appropriate, and limitations are adequately addressed. My only concern is regarding whether this is a high priority for the journal, given that it does not provide much of an enormous contribution to the field (it confirms what is expected), but that appears to be a decision for the editors. In terms of the science, methods, and writing, it is quite appropriate.

Minor Essential Revisions:
- Line 57: something grammatically unclear at the end of this sentence
- Line 80: reverse order of are/all
- Line 272: Most principals not most schools

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
