Title: Assessment of maternal anemia in rural Western China between 2001 and 2005: a two-level logistic regression approach

Version: 2 Date: 17 November 2012

Reviewer: liqian Qiu

Reviewer’s report:

Discretionary Revisions
According author’s response the "Western China" is not only mean geographic location. More important it is mean the similar socioeconomic characteristic area. And this classification was recognized by Chinese Ministry of Health and UNICEF. These term is also used in other papers.
If author could explain this meaning in the "Materials and methods" it may be more clear for the meaning.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable
