Title: A framework for stakeholder identification in concept mapping and health research: A novel process and its application to older adult mobility and the built environment

Version: 2 Date: 15 April 2013

Reviewer: Shannon Sibbald

Reviewer's report:

I am very pleased (and impressed) with the authors responses and attention to detail.

The authors have addressed all of my concerns and I feel the manuscript is much stronger, more clear, and will be of more interest to the readership.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
