Reviewer’s report

Title: Meal frequencies in early adolescence predict meal frequencies in late adolescence and early adulthood

Version: 4 Date: 7 April 2013

Reviewer: Sandra Abreu

Reviewer’s report:

The authors have satisfactorily amended the manuscript according to the reviewers’ original concerns. Hence, I believe that the manuscript can be accepted without extra revisions.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
