Reviewer's report

Title: Smoking, mental illness and socioeconomic disadvantage: Analysis of the Australian National Survey of Mental Health and Wellbeing

Version: 3 Date: 18 April 2013

Reviewer: Elena Ratschen

Reviewer's report:

I am happy with the author's responses and changes made to the first review. I still feel that the discussion is excessively long. Regarding associations between smoking and various mental disorders, please also see 'Smoking and mental health. A joint report by the Royal College of Physicians and the Royal College of Psychiatrists' London, March 2013.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
