Reviewer's report

Title: A qualitative exploration of Malaysian cancer patients' perceptions towards cancer screening

Version: 1 Date: 16 October 2012

Reviewer: Harith HAQ Qazaz

Reviewer's report:

Abstract: Ok

Introduction:
• I advise the authors to add some information about that what is already known to the cancer screening concerning Malaysian population.
• Authors have presented quite the detail of the HBM, I feel it is not necessary to add such detail here, authors should curtail some of the unnecessary information provided.

Methodology: Quite clear and correct
• But one concern that why the patients with high income not taken in to the consideration of the study.

Result: Clear and appropriate

Discussion: Clear and appropriate

Reference: Some of the reference are not complete.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
