Reviewer's report

Title: Marginalisation and cardiovascular disease among rural Sami in Northern Norway: a population-based cross-sectional study

Version: 2 Date: 6 March 2013

Reviewer: Tore Tynes

Reviewer's report:

The paper needs a major revision with a shorter Introduction, better description of methods, and a shorter and more focused discussion. The number of references could be reduced to 30.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
