Reviewer’s report

Title: Exposure Assessment of Dietary Cadmium: Findings from Shanghainese over 40 years, China

Version: 2 Date: 8 April 2013

Reviewer: Andrea Amici

Reviewer’s report:

The AA gave an answer to large part of the suggestions provided with the first revision. Many requested details have been added. Some limits have to underlined as they are not considered by the AA.

Major Compulsory Revisions
1) confusion still exist between "exposure" and "risk"
2) number of sampled peoples
3) including only the aged portion of the population

Minor Essential Revisions
1) typewriting
2) English editing

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, and I have assessed the statistics in my report.
