Reviewer's report

Title: Community-level Risk Factors for Notifiable Gastrointestinal Illness in the Northwest Territories, Canada, 1991-2008

Version: 1 Date: 19 October 2012

Reviewer: Claudia Julio

Reviewer's report:

This research conducted is a significant contribution to science in the microbiology area. The manuscript is concise, and the methodology used seems well applied, with very good written scientific English.

Minor Essential Revisions

1. The authors should add the n value in tables 2, 3 and 4 to each variable

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
