Reviewer's report

Title: Schistosomiasis Infection Among Primary School Students in a War Zone, Southern Kordofan State, Sudan

Version: 2 Date: 14 March 2013

Reviewer: Antonio Montresor

Reviewer's report:

I think the authors responded satisfactory to the points raised. There is only a remaining 2 minor editorial issues that are essential in a parasitological paper:
1- S. haematobium should be always in italic (several times in page 7 is not in italic)
3 the word “schistosomiasis” should not initiate with capital letter

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
