Reviewer’s report

Title: A cross sectional survey of attitudes, awareness and uptake of the parental pertussis booster vaccine as part of a cocooning strategy, Victoria, Australia

Version: 2 Date: 1 July 2013

Reviewer: Carl Heinz Wirsing von Koenig

Reviewer’s report:

The authors have adequately commented on all suggestions, and although I still feel that the manuscript could be shortened, I would now think could be published.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I do not have any competing interests.
