Title: A cross sectional survey of attitudes, awareness and uptake of the parental pertussis booster vaccine as part of a cocooning strategy, Victoria, Australia

Version: 2 Date: 8 July 2013

Reviewer: Siranda Torvaldsen

Reviewer's report:

I have read through the revised article and the authors's responses to reviewers comments. I am satisfied with the authors's responses and believe this manuscript would make a useful contribution to the literature without further revisions.
