Reviewer's report

Title: BMI and Psychological Distress in 68,000 Swedish Adults. A weak association when controlling for an age-gender combination.

Version: 3 Date: 27 December 2012

Reviewer: Virginia Aparicio

Reviewer's report:

Dear editor,

The authors have answered most of my questions and tried to improve the manuscript accordingly. While this is not an article of excellent form, the sample size is huge, which gives the study great weight and importance. Therefore, the Journal has the final decision.

Thanks for considering me as reviewer of this great journal.

Best regards

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
