Title: Attitudes on Euthanasia and Cremation in Cyprus: A population-based Survey

Version: 3 Date: 10 August 2013

Reviewer: Hilde M Buiting

Reviewer's report:

The authors have responded satisfactorily to all of the comments, including the last part of the discussion section. I only want to suggest some minor changes to better clarify the differences in interpretation with respect to euthanasia.

- Introductions section (p4); could you please add that euthanasia in the Netherlands is only regarded as the deliberate ending of life by lethal medication?

- Introduction section (p5); could you please add that the term euthanasia in Cyprus is widely interpreted in the sense that it is more than the provision of lethal medication.
