Reviewer's report

Title: Sustained impact of community-based physical activity interventions: a framework for implementation

Version: 2 Date: 15 August 2013

Reviewer: Lynne Millar

Reviewer's report:

This is a well written article that clearly sets out a framework for public health interventions.

There are only a few minor errors that should be amended:
Page 5 - second paragraph - need a reference for "...physical inactivity is now cited as the fourth leading cause of death worldwide (ref)."
Page 9 - second paragraph - "policy analyst/makers" should read "policy analysts/makers".
Page 14 - end of second paragraph should read (Table 2)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
