Reviewer's report

Title: Suicide and Related Health Risk Behaviours among School Learners in South Africa: Results from the 2002 and 2008 national Youth Risk Behaviour Surveys

Version: 2 Date: 31 July 2013

Reviewer: Albert Lee

Reviewer's report:

The authors has taken into account of the comments of reviewers in revision. One minor suggestion is to have few bullet points on the way forward to conclude the papers and also link with the Health Promoting School Initiatives, The authors would also considering taken reference from 'The Stellenbosch consensus statement on health promoting schools' which is based on a colloquium held at Stellenbosch Institute for Advanced Study at Stellenbosch University in South Africa with speakers from five continents. (Macnad A. The Stellenbosch consensus statement on health promoting schools. Global Health Promotion 2013; 20(1): 78-81

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
