Title: Risk factors for pulmonary tuberculosis in Croatia: a matched case-control study

Version: 3 Date: 17 September 2013

Reviewer: Guy Harling

Reviewer's report:

The reviewers have endeavoured to take all my previous comments into account. I believe that the manuscript is now in publishable form. I note two very minor items.

Minor Revisions:
Background. Paragraph 1. The authors have removed the word 'European', making it seem that they do not consider the USA a developed country.

Background. Paragraph 2. It might not be appropriate to refer to Croatia as 'we' in a scientific article.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
