Reviewer’s report

Title: Significant rise of the prevalence and clinical features of childhood asthma in Qingdao China: Cluster sampling investigation of 10,082 children

Version: 4 Date: 29 July 2014

Reviewer: Chantal Raherison

Reviewer’s report:

The authors answered to the different comments.
They only should mentionned that for some children (0 to ?), parents answered to the asthma questionnaire.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
