Reviewer’s report

Title: Significant rise of the prevalence and clinical features of childhood asthma in Qingdao China: Cluster sampling investigation of 10,082 children

Version: 4 Date: 17 July 2014

Reviewer: ISABELLE VACHIER

Reviewer's report:

Why the authors used the term Cluster in the title? It is not appropriate.
There are still questions about the validation of the questionnaire.
The English has been reviewed, thanks for these corrections.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
