Reviewer's report

Title: Impact of changes in specificity of data recording on cause-specific injury mortality in the United States, 1999-2010

Version: 3 Date: 19 September 2014

Reviewer: Huiyun Xiang

Reviewer's report:

I commend the authors for their effort in addressing concerns raised in the previous review. The quality of the manuscript has been improved. No major issues exist in the revised manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I do not have conflict of interest with this paper.
