Reviewer’s report

Title: Psychometric properties of the Korean SF-12 v2 for assessing the general population

Version: 2 Date: 8 September 2014

Reviewer: Dong Wook Shin

Reviewer’s report:

The manuscript is clearly written with sound methodology for the validation of questionnaire. As SF is one of the most commonly used questionnaire to measure HRQL, it is expected that this manuscript is of help for Korean researchers who use this questionnaire.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

None.
