Reviewer's report

Title: Avian influenza risk perceptions among Canadian First Nations subsistence hunters: Implications for influenza pandemic plans

Version: 2 Date: 23 September 2014

Reviewer: Jonathan Gubbay

Reviewer's report:

This manuscript presents some descriptive research that is of great importance, as it generates new knowledge about the risk perceptions of avian influenza among First Nations subsistence hunters. The manuscript is well written and can be published without revision provided it meets the journal format/length criteria.

Major Compulsory Revisions
None

Minor Essential Revisions
None

Discretionary Revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have received research grants from GlaxoSmithKline Inc. and Hoffman-La Roche Ltd to study antiviral resistance in influenza, and from Pfizer Inc. to conduct microbiological surveillance of Streptococcus pneumoniae.
