Reviewer's report

Title: Access to Health care and Employment Status of People with disabilities in South India, the SIDE (South India Disability Evidence) Study

Version: 4 Date: 1 October 2014

Reviewer: Sanjeev Gupta

Reviewer's report:

Major compulsory revisions:

1. This is not a case control study. In response to my earlier comment, the authors have removed “case control study” from the title. However, the terms “control” and “case control design” still feature at several places in the text. These need to be removed.

2. Table 4: The p values of the Adjusted Odds Ratios need to be provided in table 4.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests.
