Reviewer’s report

Title: The burden of underweight and overweight malnutrition among women in Addis Ababa, Ethiopia

Version: 2 Date: 30 September 2014

Reviewer: Hélène Delisle

Reviewer’s report:

The authors have diligently addressed our comments to our satisfaction. There are, however, a few minor points to correct:

1. 'Malnutrition' should be deleted from the title. I believe it was inadvertently maintained.
2. Background: it is single-spaced. It should be harmonized with the rest of the paper.
3. P. 12, bottom: 'Despite the fast economic growth...' is not needed there and actually, it obscures the sentence.
4. Figure 1: please use 'Prevalence' instead of percentages as in Fig. 2
5. Much English editing is required.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
