Reviewer's report

Title: Prevalence of Hypertension and Associated Cardiovascular Risk Factors in an Urban Slum in Nairobi, Kenya. A population-based survey

Version: 1 Date: 15 April 2014

Reviewer: Samy Slimani

Reviewer's report:

Original article, reporting the prevalence of an important issue in NCD, with a very interesting reporting of age standardized prevalence. A well written article, with optimal length of the different chapters.

Minor Essential Revisions:
The authors have not reported whether any patient consent was taken.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
