Reviewer's report

Title: Geographic information analysis and web-based geoportals to explore malnutrition in Sub-Saharan Africa: A systematic review of approaches

Version: 1 Date: 11 August 2014

Reviewer: Clara Burgert

Reviewer's report:

See attached word document

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have worked for the last 5 years on the USAID funded Demographic and Health Program. This is a primary source of data used by many of the articles reviewed in the manuscript. Additionally, I oversee the data and development of the Spatial Data Repository which is one of the geo-portals mentioned in the manuscript.
