Reviewer’s report

Title: Geographic information analysis and web-based geoportals to explore malnutrition in Sub-Saharan Africa: A systematic review of approaches

Version: 1 Date: 17 September 2014

Reviewer: Yasushi Honda

Reviewer’s report:

This is a systematic review and the authors pointed out relevant problems in the previous studies.

I have no comment in major compulsory revision category and minor essential revision category.

Discretionary revision

1. It would be helpful for the readers if the authors provide a fictitious example of the future study that shows how the problems with the previous studies are solved.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
