Reviewer's report

**Title:** A cross-sectional, population-based study measuring comorbidity among people living with HIV in Ontario

**Version:** 1  **Date:** 10 September 2013

**Reviewer:** Thomas Brett

**Reviewer's report:**

I feel this paper can be improved with some revisions - I have opted for '"Minor Essential Revisions" and these relate mainly to the narrative used. See attached report. In its present form, it is a difficult read but can be improved with some effort.

**Level of interest:** An article of importance in its field

**Quality of written English:** Not suitable for publication unless extensively edited

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
