Reviewer's report

Title: Influence of health behaviours on the incidence of infection and allergy in adolescents. The AFINOS cross-sectional study.

Version: 2 Date: 18 November 2013

Reviewer: Amelia Marti

Reviewer's report:

1. Unfortunately the Z score for BMI are not calculated right. The author should re-calculate again this variable.

2. The authors use the word "gender" and "sex" along the text, it could be more appropriate to use "sex" if they are referring to biological identity.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
