Reviewer’s report

Title: Effect of omega-3 fatty acid supplementation on cancer incidence, non-vascular death, and total mortality: a meta-analysis of randomized controlled trials

Version: 4 Date: 28 December 2013

Reviewer: Dennis Nilsen

Reviewer’s report:

In this revised paper the authors have responded adequately to my comments. Overall, the paper has improved and the results are of interest, as they focus on the effect of omega-3 fatty acids on the risk of cancer incidence, nonvascular death, and total mortality. I have no further comments.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
