Reviewer's report

Title: Are psychosocial stressors associated with the relationship of alcohol consumption and all-cause mortality? Findings from the MONICA/KORA Augsburg Cohort Study, 1984-2002

Version: 5
Date: 8 February 2014

Reviewer: Rebecca Evans-Polce

Reviewer's report:

The authors have generally responded adequately to my concerns and questions.

Discretionary revisions

There is still some awkward phrasing and grammatical errors throughout the manuscript, particularly in the methods and discussion. A further careful read may be beneficial for a clearer manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
