Reviewer's report

Title: Individual, facility, and program factors affecting retention in a national weight management program

Version: 4 Date: 21 February 2014

Reviewer's report:

I think the paper has improved greatly after the revisions were made. I have a couple of minor comments that should be addressed.

Minor Essential Revisions:
1. page 4, statistical analysis: Table 2 is listed to report results from the logistic regression but it should actually be shown as Table 3.

2. page 10: you added the "Bivariate Analysis" subtitle on the previous page so to keep it consistent, you should then add "Multivariate Analysis" on page 10 above the Individual Factors section.

3. page 17, last paragraph, correct spelling of "attention".

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
