Reviewer's report

Title:HIV serostatus and disclosure: implications for infant feeding practice in rural south Nyanza, Kenya

Version:4 Date:12 April 2014

Reviewer:Wilson Lo

Reviewer's report:

The authors addressed all the concerns I posed previously. The answers were clear and justified. Data Analysis section now contains important procedural information that describes the rationale.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests.
