Reviewer's report

Title: Food items contributing most to variation in antioxidant intake; a cross-sectional study among Norwegian women

Version: 2 Date: 22 November 2013

Reviewer: Daiva Gorczyca

Reviewer's report:

The work was conducted on the large and homogeneous group of participants and indentified a list of food items which capture the variation in antioxidant intake.

Minor Essential Revision. Authors should review introduction section: citations, repeated sentences.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
