Reviewer’s report

Title: Prevalence of risky sexual behavior in Men Who Have Sex with Men Recruited Online Versus Offline: A meta-analysis

Version: 1

Reviewer: HONGXIONG GUO

Reviewer’s report:

Minor Essential Revisions:

1. in title:
   As you knew, many risk behaviors are involved in acquiring HIV infection among MSM. And UAI is only one of them. In your manuscript, only UAI are analyzed. So the title is not accordance with your result.

2. in discussion part “if the definition of the scope of UAI is wider, the UAI rate would be accordingly higher. Recently, a meta-analysis [15]”, please give the definition of the UAI wider or not, respectively.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
