Reviewer's report

Title: A qualitative comparative analysis of well-managed school sanitation in Bangladesh

Version: 3 Date: 11 November 2013

Reviewer: Uwem Ekpo

Reviewer's report:

The authors have revised and incorporated some of my suggestions and comments. With regards to map of the school locations, I still feel that a map of the study area would be needed in the light that study is a of public health issues, and knowing the locations of these school would be helpful.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
