Reviewer’s report:

Thank you to the authors for responding to my comments and making appropriate revisions to the paper. I am satisfied with all the changes made. I only picked up two essential/minor revisions that now need attention:

p5: ‘Parents and children were asked FOR and provided written consent with the exception of the youngest who gave verbal consent’. [CAN YOU CLARIFY, HOW MANY GAVE VERBAL CONSENT?]

P7 SENTENCE 2ND HALF DOESN’T MAKE SENSE: ‘For some, retaining half the families in the programme was considered sufficient, while other thought with was “appalling”

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
