Reviewer's report:

For author's response to reviewers:

# MAJOR COMPULSORY REVISION:
- The language for conclusion in the abstract and in the main text needs to be similar. The null finding that the 'interventions did not fare significantly better than usual care in achieving glycemic control' (as included in the main text) should also be included in the abstract conclusion.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
