Reviewer’s report

Title: Lower health literacy predicts smoking relapse among racially/ethnically diverse smokers with low socioeconomic status

Version: 2 Date: 17 April 2014

Reviewer: Jizzo Bosdriesz

Reviewer's report:

Minor essential revisions:
- In addition to rephrasing 'low HL' to 'lower HL', I recommend including the cutoffs in the abstract, for instance "...smokers with lower HL (<64.5) were significantly more likely than those with higher HL (> 64.5) to relapse."

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
